

Ayele Eshete

SQL Server DBA

480-386-2091 | ayelejb@gmail.com | Dallas, TX

PROFESSIONAL SUMMARY

SQL Database Administrator with over 10 years of experience specializing in SQL Server environments (2005-2022). Expert in designing and managing high-performance databases, with proficiency in AlwaysOn Availability Groups, PowerShell scripting, and process automation. Proven track record in improving database performance by 30% and reducing downtime through efficient high-availability and disaster recovery strategies. Skilled in ensuring database security and compliance with industry standards like HIPAA, supported by strong technical know-how of CI/CD pipelines, automation, and dynamic data masking.

CORE COMPETENCIES

- SQL Server 2005-2022
- AWS RDS
- Azure SQL Database
- AlwaysOn Availability Groups
- Failover Clustering
- PowerShell
- T-SQL
- Transparent Data Encryption
- Dynamic Data Masking
- Row-Level Security
- CI/CD Pipelines
- Extended Events
- DMVs
- Logi Composer
- AWS DMS
- SSIS
- Log Shipping
- Replication
- Database Engine Tuning Advisor
- Query Store
- HIPAA Compliance
- Amazon Redshift
- Performance Tuning
- On-call Support

PROFESSIONAL EXPERIENCE

Position | UnitedHealth

October 2020 - Present

Position | CGI

June 2017 – September 2020

Position | Exelon Corporation

May 2015 – June 2017

TECHNICAL PROFICIENCIES

SQL Server • Backup • PowerShell • DBA • Security • Database Administrator • SQL Server features • remote work • database performance • data availability • process automation • self-serve tools • database security • backups • maintenance tasks • on-call rotation • git • Windows • Linux • MySQL • PostgreSQL • AlwaysOn Availability Groups

CERTIFICATIONS

- AWS Certified Solutions Architect Associate
- Microsoft Certified Professional in SQL Server 2012/2014
